

God's Plan for Butterflies

The life cycle of a butterfly can remind us of how God sent His Son Jesus to die for us and rise again. When the caterpillar is inside the chrysalis, we can remember how Jesus spent three days in the tomb after He died on Good Friday. When the beautiful butterfly crawls out of the chrysalis and flies away, we remember how Jesus came alive again, and how He will take us to heaven one day.

Do the dot-to-dot to see Lisa's butterfly. Then decorate your butterfly with bright colors.
